International partnership: MyCademy will distribute Cegos' e-learning solutions

Cegos, a worldwide leader in training and development, and MyCademy, a leading e-learning firm based in the Netherlands, have signed a partnership agreement. MyCademy will distribute Cegos' e-learning modules to its clients in the Netherlands and in Belgium.

MyCademy customers will now have access to the *Cegos Catalogue on Personal Skills* (including HTML5 courses localized in Dutch). This premium content will be available to MyCademy's customers in the Netherlands and in Belgium. In the near future, customers in Denmark, Norway, Sweden, Finland and Great Britain will also be able to benefit from the new partnership agreement.

The MyCademy platform specializes in e-learning solutions that deliver continuous learning to IT professionals. These include IT courses from Microsoft, Cisco, VMware and Oracle. Users have on-demand, unlimited access to more than 500 courses, 45.000 videos, e-books and LiveLabs from any device. The platform also gives HR and IT managers comprehensive insight into the knowledge each IT professional acquires on his learning journey.

Cegos trains 250,000 people globally every year, in open or in-house courses. The Group has a comprehensive product range that extends from off-the-shelf courses to tailored solutions. Its online Catalogue on Soft Skills has 2 millions of learners per year and is distributed by +50 partners in the world. The Group also offers +100 certificate or diploma courses, independently or in partnership with universities and top educational facilities.

Patrick Kieviet, CEO of MyCademy, explains: *"Our customers are requesting more support in developing personal skills in the field of management and leadership, as well as in communication. With this, they can make their IT organisations more effective. The partnership with Cegos is a logical step for us to enrich our offering."*

Pascal Debordes, head of Channels and Alliances at Cegos Group, adds: *"We are really excited about the new partnership with MyCademy. We share with MyCademy the vision of a personalized learning experience through digital channels. The Cegos' learning solutions will now be spread in Northern Europe thanks to the leadership and initiatives of MyCademy in this region."*

About MyCademy

MyCademy is an IT academy that provides continuous up-to-date IT knowledge to IT professionals. The MyCademy online platform combines continuous knowledge development through e-learning and IT training with a community,

a knowledge database, performance support for everyday assistance, practice tests, knowledge management tools, and question and answer opportunities with peers. Many courses and exams have official certificates. With MyCademy, you can create your own continuous learning academy.

MyCademy is a versatile platform that is more cost effective than classroom teaching, it costs less time, is easier to schedule and always available. It offers in-depth insights to HR and IT Managers about the progress of IT professionals learning with MyCademy and about the knowledge they acquire. Our customer success team works with organizations to implement continuous learning. It is MyCademy's mission to make continuous learning truly successful for IT professionals.

About the Cegos Group

Created in 1926, the Cegos Group is a worldwide leader in training and development. The Group now runs its own operations in 11 European, Asian and Latin American countries. It is also active in over 50 countries through its network of partners and distributors, which are all leading training providers and top-tier technology experts.

With 1,000 employees and more than 3,000 partner consultants, the Group trains 250,000 people around the globe every year and generates sales of €200 million.

Cegos deploys a global offering, including turnkey and tailored training and development, operational consultancy, Managed Training Services and international training projects. Its "blended learning" approach aims to provide the most suitable and competitive learner experience, by combining multiple learning formats (classroom training, e-learning modules, videoconferences, webcasts, e-training programmes and more).
